 - JavaScript (intermediate) Certificate. [Verify](#)
 - CSS Certificate. [Verify](#)
 - React (Basic) Certificate. [Verify](#)

PROJECTS

Below are some of my projects. View all of my projects with more details at: <https://sureshdahal.com.np>

Effort Study, An Online Learning Platform

[DEMO](#)

- **Type:** Full-stack
- **Technologies:** Next.js, Tailwindcss, PostgreSQL, Typescript
- **Summary:** This full-stack online learning platform is built with Next.js, PostgreSQL, and Tailwind CSS. The user can take a practice quiz or mock test and view their score and the time taken to complete the mock test. Whereas the admin can log in and manage the contents.

URL shortener

[CODE](#) | [DEMO](#)

- **Type:** Frontend web with API
- **Technologies:** Next.js, Tailwindcss, Typescript
- **Summary:** Fully functional URL shortener using an API. Shortened URLs can be copied with one click. Links are stored in local storage that can be deleted if needed.

Multi-step form

[CODE](#) | [DEMO](#)

- **Type:** Frontend
- **Technologies:** Next.js, Tailwindcss, Typescript
- **Summary:** A form that needs to be filled in different steps. By doing this project, I learned to make multi-step forms and manage states using ContextAPI.

Online Food Ordering System

[CODE](#) | [DEMO](#)

- **Type:** Fullstack
- **Technologies:** HTML, CSS, JS, PHP, MySQL
- **Summary:** This was a group final year project while pursuing a diploma in IT. It is a full-stack project with a fully functional interface for customers, admin, kitchen, and delivery staff.
